

# energie | wende | kunst

A socio-political art project by the Bausch Foundation

## The Idea.

EnergieWendeKunst – or EnergyTransitionArt – is a competition, an exhibition, a series of events!

The competition invites artists to conceive creative approaches to the German energy transition. Visitors to the exhibition and the events will find a space to see, discuss and experience the Energiewende from new and unconventional angles.

EnergieWendekunst is innovative, provocative, inspiring.

## Open Call.

The competition invites visual arts contributions in all formats such as drawing, painting, sculpture, photography and film. Interdisciplinary, mixed media and genre-related contributions are also encouraged.

Every approach, every opinion and every interpretation is welcome! However, the work has to address the German energy transition.

The deadline for the submissions is 31 August 2014.

The conditions can be found [here](#).

## The Jury.

The jury will select the winners of the competition as well as the artworks for the exhibition. The jury is composed of six high-profile individuals:

- **Leonie Baumann (Chair)**, President of Art Academy Berlin Weißensee
- **Dr. Inke Arns**, Artistic Director of the Hartware MedienKunstVerein (HMKV), curator and author
- **Dr. Katja Blomberg**, Director of the Haus am Waldsee – International Art in Berlin
- **Adrienne Goehler**, curator, author and former President of the Academy of Fine Arts in Hamburg and former Senator for Science, Research and Culture of the State of Berlin
- **Prof. Frithjof Staiß**, Managing Director of the Centre for Solar Energy and Hydrogen Research (ZSW), member of the Expert Commission for the Monitoring of the Energy Transition
- **Prof. Klaus Töpfer**, Director of the Institute for Advanced Sustainability Studies, Chair of the Council of Agora Energiewende

## The Exhibition.

The exhibition will be open for three weeks from the 8th to the 29th of November 2014 at the silent green Kulturquartier in Berlin, Wedding.

The exhibition space will inspire and host multiple events where people have the opportunity to discuss the energy transition from innovative perspectives.

## Supporters and Team.

The Bausch Stiftung, Neu Kalifß, is the main supporter of this project. It has a notable history of supporting and organizing cultural projects since its initiation in 2007. EnergieWendeKunst would not be realized without support from other institutions including the Hatzfeld Foundation, the Schweisfurth-Foundation, Voelkel Organic Juices and several private donors.

The project is made possible by the creative commitment of a team of highly dedicated individuals. The team consists of people from a myriad of backgrounds and disciplines who have and continue to provide their extensive experience and time.

More information can be found [here](#).

EnergyTransitionArt is colorful, multifaceted and opens a room to experience a societal transformation through art. EnergyTransitionArt aims to excite, irritate, inspire! To realize this, the project needs your energy and support. Give us a hand!
